LINEAGE

FOR US, THIS IS THE STRAIN THAT STARTED IT ALL. OUR MASTER GROWER, DREW, DEVELOPED A CULT FOLLOWING OFF THIS RARE GENETIC AND TODAY IT CONTINUES TO HOLD A SPECIAL PLACE FOR OUR TEAM. BRED BY OCEAN GROWN SEEDS, DARK HELMET IS AN INDICA DOMINANT HYBRID CREATED THROUGH CROSSING FORUM CUT GSC WITH THEIR CLONE ONLY JAWA PIE MALE. THIS STRAIN PRODUCES VERY DENSE AND FROSTY BUDS. THE INITIAL SCENT OF JET FUEL IS FOLLOWED BY PLEASANT FLAVOURS OF LIME AND SUGAR COOKIES.
