BIO

BRED BY SEED JUNKY GENETICS, BIG APPLE IS A STANDOUT STRAIN BORN FROM A CROSS OF APPLE FRITTER AND SHERB BXI, DELIVERING BOTH IN POTENCY AND FLAVOUR. ITS HEART-SHAPED, DENSE NUGS ARE COATED IN A FROSTY LAYER OF TRICHOMES, SHOWCASING A STRIKING APPEARANCE. THE AROMA AND FLAVOUR PROFILE BLENDS SHARP SOUR CITRUS, CREAMY NOTES, AND SWEET APPLE PIE, CREATING A RICH, FULL-BODIED SMOKE THAT LINGERS ON THE PALATE.
